

Organization and Mission-Field

DETACHMENT 1. 1 SPACE WING

This regulation gives the mission, organization, and responsibilities of Detachment 1. 1 Space Wing, Socorro, New Mexico, and implements AFR 23-51.

1. **Mission.** To manage and operate, as a dedicated space surveillance sensor, the Ground Based Electro-Optical Deep Space Surveillance (GEODSS) system to detect deep space satellites. Transmits observation data to the SPADOC Computation Center (SCC) and collects space object identification data as tasked by the SCC and the ADCOM Intelligence Center (ADIC) to support the operational and intelligence missions of NORAD and Space Command.

2. **Organization.** Det 1. 1 Space Wing, is a major air command controlled unit assigned to the 1 Space Wing. Operational resource management for the unit is provided by the Commander, Space Command. Operational control is vested in CINCNORAD/CINCAD through the NORAD Cheyenne Mountain

Complex (CMC) or through backup command and control facilities. The site is contractor operated.

3. **Responsibilities.** The Detachment Chief:

- a. Evaluates contractor performance in accordance with the statement of work and guidance from the contracting officer.
- b. Ensures adequate support is provided according to support agreements.

4. **Relationships to Other Units or Agencies.** The detachment chief may communicate with other units or agencies on matters relating to mission.
